aup (en) Waiting for the software to install on a windows pc or mac, makes the software appear to install fine, but, when i try to run, it says something is wrong with the software(this is a corrupt installation). Trying to open the install file, a messagebox is displayed saying "Error : The installation file could not be read or does not have an installation program. (msi)" I guess the msi file has a problem, since i cant start the install, but if i send it to virus total, they couldnt find any bugs either(will send a screen shot if needed) Answer:cant install software Be sure to read the instruction manual. It is not just one of the buttons on the keyboard. It is also the touch pad of the keyboard. The information for the product is in the manual. You can find the manual here. Content submitted by Users is not endorsed by Blinkblue and does not necessarily reflect the views of Blinkblue i have a new driver that i have downloaded called nokia nf72-102-12-6-3-58a.inf and i don't know how to install it, i have tried to use windows update, and nothing happens, so do you have any ideas how i can install it? thanks in advance Answer:Samsung Drivers Install The driver for your phone is contained in the downloaded package. Extract the package, run the setup file and follow the prompts. First, which phone/device is this. If it is the ND-120, it's a firmware upgrade, not a driver. Secondly, only these guys provide you with firmware upgrade files that will work on your phone:www.gsmarena.com/docs/archives/98801-nd120_firmware_upgrade.phpI am not saying it will work, but it's the only source for firmwares to upgrade on your phone. Samsung has stopped supporting the Samsung Spica phone, as you can find out here: I'd like to know how to get my wacom graphire 6 to work. I've been trying to figure it out for 2 hours now and finally just decided to ask the community here. I've gotten the pen working fine. It's a wacom tablet that has 2 usb ports and one pen, and it's usb 2.0 port. How can f3e1b3768c
