Save to my google drive www.drive.google.com/a/nanuall.com/folder/0B-1-FxXdMpt9VNXhnVzZIM0gyUEXwU2hfSVJKcGc Is there any way to uninstall the program in the background or from command line. I have tried . How can we delete the program and keep the registry entries? Because I found only System Restore and another program that says it can delete other programs as well. A: You might try finding the registry keys associated with this program and use the Windows Registry Editor to clear them out. RegEdit -terminal repeat-containing protein C) has been shown to be effective in controlling *P. falciparum* infection in Uganda with no evidence of development of resistance \[@RSTB20130530C58]. It is likely that the use of mixtures of various anti-malarial drugs will become a crucial component in the artemisinin resistance situation. A recent survey of the *in vitro* IC₅₀s of *P. falciparum* isolates from 27 countries \[@RSTB20130530C59] identified low parasite clearance rates in Sri Lanka, Thailand, Cambodia and the Philippines \[@RSTB20130530C59]. This observation mirrors the data from Cambodia that show slow responses to artemisinin derivatives when resistance is evidenced \[@RSTB20130530C36]. This study also showed high gametocyte prevalence and carriage rates in the same areas, potentially furthering drug resistance and providing an explanation for the slow response to treatment. Recent studies have shown that mutations in the Kelch propeller domain of the *P. falciparum* asexual clone Dd2 are associated with IC₅₀ changes towards increased artemisinin resistance. This gene was associated with a change in anti-malarial response with increasing artemisinin concentrations \[@RSTB20130530C39] consistent with an adaptive response to artemisinin exposure. This polymorphism is closely correlated with parasite growth rate, suggesting that a higher parasite growth rate is required for the phenotype. Increased parasite growth rate is generally associated with increased multiplication and a decreased time from invasion to maturity \[@RSTB
